Fête de la Science Script - ENGLISH

- Hello: Hello!

- Name: "My name is NAO."

- Goodbye: "Goodbye!"

- age: "I'm 6 years old"

- **1.** INTRO: "Hello ! I'm NAO. Today, we will play a game together. Together, we need to program Cubetto to move around the map. To do so, we can use the control board, do you see it?"

- **2.** RULES: "To move Cubetto, you put the pieces in the control board, starting from the arrow. When you have finished placing all the pieces, you need to press the blue button. There are 3 different pieces. The green pieces move Cubetto one square forward, the yellow pieces move him left, and the red pieces move him right. Do you understand?"

- repeat_rules: " The green pieces move Cubetto one square forward, the yellow pieces move him left, and the red pieces move him right."

.... DIVIDER BUTTON CORRECT..................

- **3.** rocket_volcano_CORRECT: "Okay, now we will take turns playing the game. I will go first. Cubetto starts on the rocket, and I want to move him to the Volcano. However, I will need you to place the pieces for me. First, place one green piece."

- **3a.** rocket_volcano_CORRECT: "Next, one yellow piece"

- **3b.** rocket_volcano_CORRECT: "Again, one green piece"

- **3c.** rocket_volcano_CORRECT: "Then one red piece"

- **3d.** rocket_volcano_CORRECT: "Finally, two green pieces"

.... DIVIDER BUTTON INCORRECT..................

- **4.** rocket_mountain_INCORRECT: " Okay, now we will take turns playing the game. I will go first. Cubetto starts on the rocket, and I want to move him to the Volcano. However, I will need you to place the pieces for me. First, place one green piece."

- **4a.** rocket_volcano_INCORRECT: "Next, one red piece"

- **4b.** rocket_volcano_INCORRECT: "Again, one green piece"

- **4c.** rocket_volcano_INCORRECT: "Then one yellow piece"

- **4d.** rocket_volcano_INCORRECT: "Finally, two green pieces"

- **6.** press_button: "Press the button"

- **7.** cubetto_move: "Cubetto is on his way!"

- remove_piece: "remove the last piece"

- **8a.** nao_successful: " Yay ! Cubetto has arrived at the correct destination, my instructions were right! "

- **8b.** nao_unsuccessful: " Oh no! It looks like Cubetto has gotten lost somewhere, my instructions were wrong! "

- **9.** child_turn: "Okay, now its your turn ! Before starting, remove all the pieces from the control board"

- **11a.** choice_saturn: " Now you can choose where to go! If Cubetto starts on the volcano, you can go to either Saturn or Jupiter. I prefer Saturn. What about you, do you prefer Saturn or Jupiter?"

- **11b.** choice_jupiter: " Now you can choose where to go! If Cubetto starts on the volcano, you can go to either Saturn or Jupiter. I prefer Jupiter. What about you, do you prefer Saturn or Jupiter?

- **12.** after_choice: "You can choose the movements. After you are finished, press the button"

- child_successful_conclusion: "Well done! Cubetto has arrived at his final destination, nice job!"

- child_unsuccessful: "Oops, Cubetto looks like he got lost somewhere! Don't worry - do you want to try again?"

- last_attempt: "Let's try one last time !"

- suggest_stopping: "Maybe we can stop for the moment?"

- **13.** CONCLUSION: "The game is now finished. Thank you for playing with me! Goodbye!"

- 1_green: "one green piece "

- 2_green: "two green pieces "

- 3_green: "three green pieces "

- 4_green: "four green pieces "

- 1_red: "one red piece "

- 1_yellow: "one yellow piece "

- empty_button:
